

# Platinum Sports 3200/3500/3700

“ This is a craft that really encourages people to go boating often, and in a whole different set of roles. This is one of the things I really like about it because not only are you getting a really comfortable family boat for those muckaround days on the harbour with the grandkids and the rellos, but you’ve also got a hard nosed sportfishing boat that is one of the best in its class.

**Peter Webster -  
Australian Fisherman &  
Boatowner Magazine**

This has to be the most solid trailer boat I have ever experienced. ...You’re not going to beat the craftsmanship of a Sailfish.

**Nick Wood -  
Modern Boating Magazine** ”
